MakeMyEventSpecial.in is a hotel booking application that features three main categories: wedding, party, and birthday. When a user selects a category, they are presented with a list of hotels that are popular for that type of event. Clicking on a hotel provides detailed information about it. The application uses Firestore for handling login and sign-up processes, and Twilio API for sending confirmation message

Dynamic Canvas Art Generator Multi Shapes

14 May, 2024 - 02 Jun, 2024

Team Size: 4

Key Skills: Java JavaFx Multithreading OOP

Project Link: <https://github.com/onkar500>

The program displays randomly generated "art" on a canvas. When the user clicks the "Start" button, a new random artwork is generated every two seconds. The program uses a separate thread to drive the animation and utilizes Platform.runLater() to redraw the canvas on the JavaFX application thread.
