BRIEF SUMMARY

I know core java and basic Java concepts, OOPs to write Code with class structures along with multithreading in Core java. I have knowledge in DSA and experience in developing polished performance based applications using JavaFX.

Experience working with operating systems, particularly Linux and ensuring system stability as well as process management. I am fluent in database management systems (DBMS) using SQL and NoSQL databases for data storage, querying and manipulation. I write high-quality, efficient and maintainable software solutions that are grounded in both theory and best practices.
