Relevant Coursework

- Data Structures
- Machine Learning
- Artificial Intelligence
- Operating System
- Software Engineering
- Database Management
- Computer Network

Technical Skills

Programming Languages: Java, Intermediate C++

Web Development: HTML, CSS, JS, SQL

Tools: GitHub, VS Code, Eclipse, Code Blocks, Windows OS

Projects

MHT CET Result Display System | *HTML,CSS,JS,PHP,MYSQL,MangoDB,XAMMP,VS Code*

- Created a user-friendly interface using HTML,CSS,JS and PHP for displaying MHTCET results, practice papers, and collecting feedback.
- Employed MongoDB for robust data management and XAMPP for local server environment setup, ensuring reliable and scalable performance of the application.

Simon Says Game | *JS*

- The Simon Says game is a classic memory game where the player has to mimic an increasingly complex sequence of colors. The game provides a pattern of colors, and the player must repeat the pattern in the correct order.
- If the player succeeds, the pattern becomes longer, and the game continues. If the player makes a mistake, the game is over.

Temperature Converter | *HTML,CSS,JS*

- Created a user-friendly temperature converter using HTML, CSS, and JavaScript, allowing users to easily convert temperatures between Celsius, Fahrenheit, and Kelvin.
