Education

VPKBIET, Baramati

Bachelor of Engineering in Information Technology (Current GPA of 8.05)

Expected 2025

Pune, India

Lokanete Subrao Kadam Jr. College of Art's, Commerce and Science

Higher Secondary Education

2021

Percentage: 84.00

Chhatrapati Shivaji Highschool,Vaduj

Secondary Education

2019

Percentage: 88.00

Work Experience

Machine Learning Intern at CODSOFT

ML Intern

- Implemented various machine learning algorithms using Python and scikit-learn.
- Worked on data preprocessing and feature engineering to improve model performance.
- Developed an AI model that can classify SMS messages as spam or legitimate.
- Developed a model to predict customer churn for a subscription- based service or business.
- Developed a model to detect fraudulent credit card transactions. [\[Certificate\]](#)

Edunet Foundation

Full Stack Web Development Intern

- Worked as an online intern in Full Stack Web Development.
- Build website for *Voting Web Application using Django framework* [\[Certificate\]](#)

Projects

Voting Web Application using Django framework | *Html, Css, Javascript, Django, Python, SQLite* |

- Developed a dynamic web application to facilitate online voting processes using Django for the backend and SQLite as the database.
- Implemented user authentication and authorization to ensure secure voting and prevent duplicate votes.
- Designed and developed the frontend using HTML, CSS, and JavaScript, ensuring a responsive interface.
- Integrated Django views and templates to manage voting events, candidates, and results.

Library Management System | *Html, Css, Javascript, PHP, MYSQL, XAMPP* |

- Developed a comprehensive library management system to manage book inventory, user registrations, and borrow/return processes using PHP and MySQL.
- Created a responsive user interface with HTML, CSS, and JavaScript to facilitate easy navigation and interaction.
- Designed database schemas and managed the database using MySQL to store book details, user information, and transaction records.
- Deployed the application using XAMPP, ensuring a stable local development environment.

Skills

Languages: Java, Python, MYSQL, Javascript, HTML5, CSS

Coursework: Web Development , Object Oriented Programming, Machine Learning, Data Structures and Algorithms

Developer Tools: Github, VS Code, jupyter notebook, IntelliJ.

Libraries: pandas, NumPy, Matplotlib.
